РОССТАНДАРТ

EXHIBITION MAIN THEME

METROLEXPO-2017
Metrology and Measurements
13th exhibition of measuring tools, testing equipment and metrological support.

CONTROL&DIAGNOSTIC-2017
Control and Diagnostics
6th exhibition of industrial equipment and devices for technical diagnostics and expertise

RESMETERING-2017
Accounting of power resources
6th exhibition of technological and commercial accounting of power resources.

LABTEST-2017
Laboratory equipment
5th exhibition of analytical devices and laboratory equipment of industrial and scientific designation.

PROMAUTOMATIC-2017
Automation
5th exhibition of equipment and software for industrial processes.

WEIGHT SALON 2017
Weight salon
Exhibition of weighing equipment.

GOALS AND PURPOSES OF THE FORUM AND EXHIBITION

Dmitry Anatolyevich Medvedev
Prime Minister
of the Russian Federation

The forum and exhibition are held annually according to the order of the Government of the Russian Federation of April 5, 2014 No. 541-p.

Consolidation of efforts of the authority, science and business in development of domestic instrument making for ensuring needs of the industry and defense industry of the country, and also increase of efficiency of the Russian measuring system, improvement of regulatory base of metrology taking into account the international tendencies for support of innovations and their advance.

VENUE OF THE FORUM

Moscow, VDNKh, Exhibiton pavilion 75 «Rossia»

10000 m²
exposition area of the exhibition complex.

50 выставок
More than 50 exhibitions per year.

650 000 visitors
More than 650 000 visitors per year.

10 meters
Ceiling height of the pavilion, 6 meters — for the booths arrangement.

10 minutes
walk to the exhibition complex from the metro station «VDNKh» and monorail.

Parking is nearby
the pavilion, two minutes walk (on Wilhelm Pieck str.)

STATISTICS OF THE FORUM AND EXHIBITION

306
companies took part in the exhibition in 2016.

10 countries
took part in the exhibition: Austria, Belarus, Great Britain, Germany, Italy, China, USA, France, Czech Republic, Japan.

5150 persons
visited the exhibition during 3 days of its work in 2016.

2800 instruments
exhibited at the stands of the participant exhibitors.

6000 m²
the exposition area of the exhibition of 2016.

77 winners
of the competitive program «For Unity of Measurements».

COMPETITIVE PROGRAM

THE COMPETITION FOR THE PLATINUM AND THE GOLD MEDAL OF THE FORUM

The competition is held to encourage organizations that have achievedexcellent results in the design and manufacture of unique devices and equipment for civil and defense purposes (only with the valid Quality Mark).

COMPETITION OF THE DEVICES AND EQUIPMENT FOR OBTAINING THE QUALITY MARK OF MEASUREMENT MEANS

COMPETITION COMMISSION

FBI «Rostest-Moskva»

117418, Moscow,
Nakhimovsky Ave, 31

ALL-RUSSIAN CONGRESS OF METROLOGISTS AND INSTRUMENT MAKERS

Purpose

The Congress of metrologists and instrument-makers is a authoritative all Russian Conference on ensuring the uniformity of measurements.

Program of the Congress

has been formed to facilitate a constructive dialogue between manufacturers and consumers of instrumentation products and successful presentation of the achievements of innovative engineering.

3 days

Three days of the Congress work.

60 presentations

and speaking engagements.

1500 listeners

took part in the Congress in 2016.

Congress results

Adoption of the final resolution.

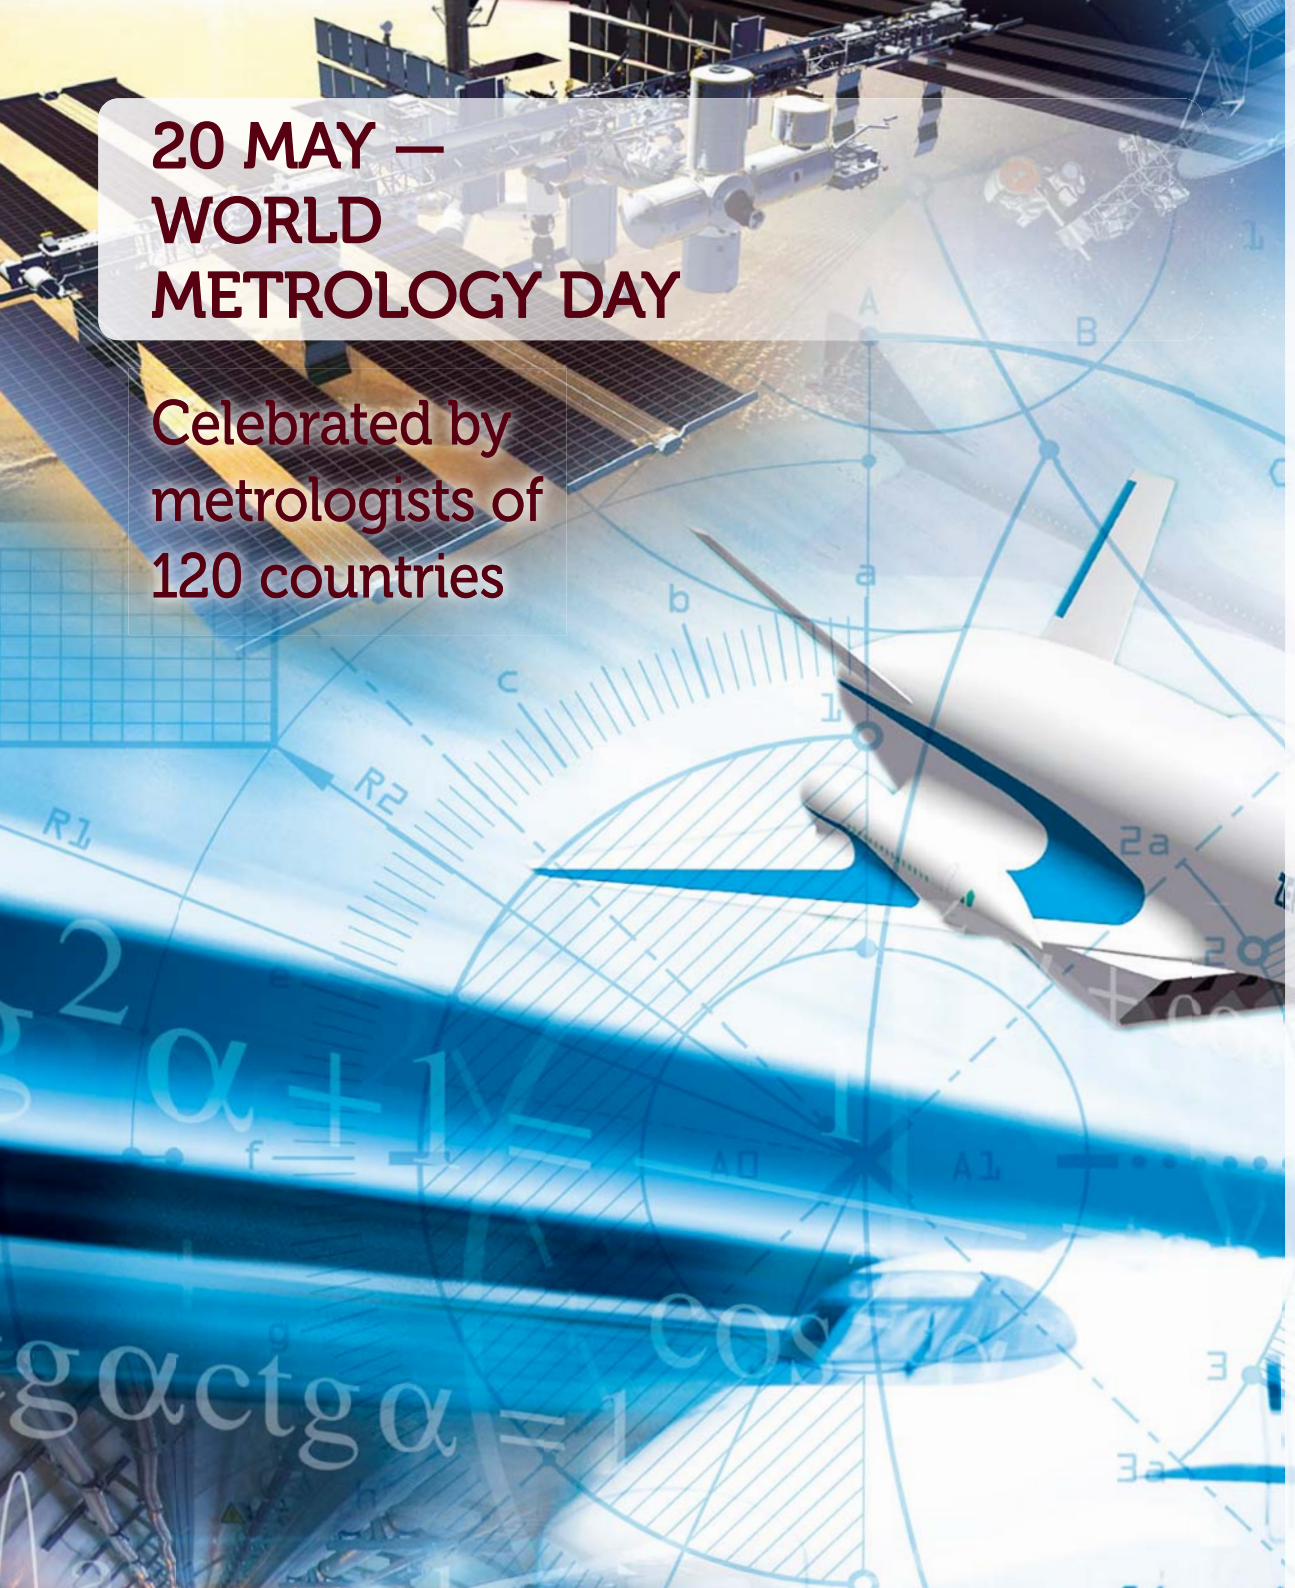
STRATEGIC OPTIONS OF THE FORUM

Alexey Abramov
Head of the Federal Agency
for technical regulation
and metrology (ROSSTANDART)

Creating conditions for Russian companieson entering the world markets, primarily with innovative, high-tech industrial products one of the main factors increasing the competitiveness of the national economy.

Therefore, establishing mechanisms for business development, building a barrier-free space for the activities of Russian exporters among the most important tasks and priorities in our activity.

Today, this work is of strategic importance to the domestic industry and the economy as a whole.



20 MAY — WORLD METROLOGY DAY

Celebrated by metrologists of 120 countries

20 MAY — World Metrology Day

World Metrology Day is the international professional holiday. Established by the International Committee of weights and measures (CIPM) in October 1999. On May 20, 1875 in Paris at the Diplomatic metrological conference representatives of 17 countries, including Russia, put their signatures under the famous Metric Convention, the first intergovernmental agreement on scientific and technical cooperation.

Celebration

Our forum is the main venue of the celebration of the World Metrology Day in Russia, including the participation of subordinate enterprises and organizations of the Federal Agency on Technical Regulating and Metrology (ROSSTANDART).

10000 metrologists

celebrate the World Metrology Day in Russia.

METROLOGY TODAY

II place
Russia occupies 2nd place in the world on measurement capabilities.

10.6 years
Average age of the standard reference base.

75% State Primary References (SPR)
Not inferior to the best world references.

165 SPR
Total, including 24 new and improved SPR in 2014-2015.

3400 types of measurement systems
are approved, and $^{2}/_{3}$ of them are Russian.

7000
services, provided by the State.

Strategy 2025
The funding amount as per the draft Strategy of the Russian Federation in the field of ensuring of the uniformity of measurements for the period 2016-2025 is 17.3 billion rubles.

TOP 5 REASONS TO PARTICIPATE IN THE EXHIBITION

Exhibition No. 1

The exhibition of the instrument making industry No. 1 in Russia, CIS and Baltic countries.

Powerful capabilities

The forum allows all participants to occupy a niche in the market of instrument production in Russia.

Unique target audience

66% of visitors are looking for new business partners, and 44% are looking for suppliers to procurement.

85% of exhibitors

take part annually. Year after year the exhibition helps business to develop and find new sales channels of production.

Rich business program

allows to discuss the most pressing issues with representatives of public authorities, science and business.
